

# DYNA-PRO

## PCA PREFERRED COURSE ADDITIVE

### PRODUCT INFORMATION

Dyna-Pro™ PCA is a highly effective foliar micronutrient formulation designed to prevent and correct iron and manganese deficiencies in most turf grasses. It should be applied in adequate water for coverage during periods when plants or grass are growing rapidly. If added to the spray tank first, it will aid in lowering the water pH. A jar-test to check the compatibilities of unfamiliar or new combinations should be performed prior mixing and application. The addition of a non-ionic surfactant and/or urea nitrogen will aid in uptake.

### CROP RECOMMENDATIONS

**Turf:** Apply 1 to 3 ounces per 1000 sq. ft. in enough water for adequate coverage. Repeat applications every 3 to 5 days or as needed.

**Greens:** Apply 1 to 3 ounces per 1000 sq. ft. in enough water for good coverage. Repeat application every 3 to 5 days or as needed.

**Ornamentals and Foliage Plants:** Apply 1 qt. per 100 gallons of water as a drench or foliar application. Wet thoroughly and repeat as needed.

### PRECAUTIONS

Avoid getting in eyes, mucous membranes or on skin. Use of side-shielded safety glasses is recommended. Use with adequate ventilation. Keep container capped when not in use. Do not contaminate feed, seed or water supplies.

CAUTION: Keep Away From Children

### FIRST AID

**Skin:** Remove contaminated clothing. Wash with plenty of clean water and soap. Consult a physician.

**Eyes:** Rinse with clean water for a minimum of 15 minutes. Seek medical attention.

**Internal:** Drink 2 glasses of water. DO NOT INDUCE VOMITING. Seek medical attention at once.

### CONTAINER DISPOSAL

Triple rinse empty containers and offer for recycling or dispose of in accordance with federal, state and local authorities.

## CAUTION

**Keep out of Reach of Children**
