## MZF

Citrus Spray

### PRODUCT INFORMATION

Dyna Green Vegetable MZF is a liquid foliar formulation designed for maximum uptake of zinc, manganese and iron and should correct and prevent deficiencies in most citrus. If added to the spray tank first, it will aid in lowering water pH. A jar test to check the compatibilities of new or unfamiliar combinations should be performed prior to mixing and application. The addition of a non-ionic surfactant and/or urea nitrogen will aid in uptake.
