	SECTION 4. FIRST AID MEASURES
General:	In case of persisting adverse effects consult a physician. Treat symptomatically.
Ingestion:	Rinse mouth. Do NOT induce vomiting. Drink large amounts of water. Never give
	anything by mouth to an unconscious person.
Skin Contact:	Take of immediately all contaminated clothing. Rinse skin with water/shower.
	Wash contaminated clothing before reuse.
Inhalation:	Remove person to fresh air and keep comfortable for breathing. If not breathing,
	give artificial respiration. Seek prompt medical attention.
Eye Contact:	Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and
	easy to do. If eye irritation persists: get medical attention.
Acute Exposure	May cause transient irritation of eyes and skin. Ingestion may be irritating to the
Symptoms:	gastrointestinal tract.
Chronic Exposure	Prolonged skin contact may result in dermatitis (inflammation and redness of skin).
Symptoms:	Manganese may lead to neurotoxicity that resembles Parkinson disease. These
	patients may have bradykinesia, resting tremor, psychiatric disturbances, and
	shuffling gait.

	SECTION 5. FIRE FIGHTING MEASURES		
Extinguishing	Water spray is recommended. Halon, foam, dry chemical, CO2 or any ABC class		
Media:	extinguisher are acceptable. Use extinguishing agent most appropriate to		
	surrounding materials. Cool containers with water spray to avoid rupture due to		
	thermal expansion.		
Specific Hazards:	This product is an aqueous mixture which will not burn. In a fire this material may		
	decompose and produce acrid vapors, manganese, zinc, iron and copper		
	compounds, sulfur oxides and carbon oxides		
Protective	Wear self-contained breathing apparatus (SCBA) and full protective gear. Avoid		
Equipment and	inhaling combustion products.		
Precautions for	Fire run-off should be contained to prevent possible environmental damage.		
Fire-Fighters:			
NFPA Rating:	Health: 1, Fire: 0, Reactivity: 0		

SECTION 6. ACCIDENTAL RELEASE MEASURES		
Precautions:	Isolate area. Keep unnecessary personnel away. Avoid splashing or spraying.	
Protective	Impervious gloves (rubber, neoprene or nitrile), Long sleeved clothing.	
Equipment:	Chemical splash-proof goggles.	
	Chemical resistant apron and/or rubber boots may be needed.	
Containment:	Stop flow of material if safe to do so. Dike area with diatomaceous earth or sand	
	and maximize recovery.	
Clean Up:	Pump into a suitable tank or absorb with diatomaceous earth or sand. Sweep up	
	and place into suitable containers for agronomical land application at	
	recommended rates or dispose of in accordance with local/regional/national	
	regulations (See Section 13 of SDS).	

	SECTION 7	. HANDLING AND	STORAGE
Precautions for safe handling:	Avoid contact with skin and eyes. Do not breathe sprays, vapors or mists. Do not eat, drink or use tobacco products when handling this material. Apply product in open or well ventilated areas. Keep away from children and pets. Do not contaminate feed, seed or any water sources. Launder work clothes frequently and separate from other laundry.		
Conditions for safe storage:	Store in original containers in a well-ventilated, cool, dry place, away from direct sunlight, sources of intense heat, or where freezing is possible. Do not let product go below 32°F. Inspect all incoming containers before storage, to ensure containers are properly labeled and not damaged. Store in polypropylene or fiberglass corrosion resistant containers.		
Incompatibilities:	Water reactive materi	als, strong oxidizer	S
