

DYNA GREEN™

CORN & GRAIN MIX Liquid Spray

Information

Dyna Green Corn & Grain Mix is a concentrated formulation for both foliar and use in fluid fertilizers. **Caution:** Do not use in a tank mix with high phosphate products such as 10-34-0. For foliar application Dyna Green Corn & Grain Mix should be added to spray tank first and will aid in lowering the water pH. Check compatibilities of untried chemical mixes. The addition of a non-ionic surfactant will help leaf absorption.

Directions For Use

Foliar Spray: Dyna Green Corn & Grain Mix will disperse in water with minimal agitation, and may be applied with most pesticides. Apply 1-3 quarts per acre in enough water to cover through conventional sprayers, and with low volume equipment use 1 quart per acre in at least 5 gallons of water per acre and a non-ionic surfactant such as Active 80.

Broadcast Ground Application: *Severe Deficiency* –4 quarts per acre; *Moderate Deficiency* –2 quarts per acre; *Maintenance* –1 quart per acre.

Row Application: Use at rates of 2 quarts per acre as a supplement to broadcast application.

Minimum Guaranteed Analysis

Soluble Zinc as Zn (chelated) 5.00%
Soluble Manganese as Mn (chelated) 1.00%
Soluble Copper as Cu (chelated) 1.00%
Sulphur, combined as S 4.00%
Derived from: Zinc lignin sulphonate, Manganese lignin sulphonate and Copper lignin sulphonate.

Crop Recommendations

Dyna Green Corn & Grain Mix is recommended to prevent and correct micronutrient deficiencies in the following crops: alfalfa, almonds, avocados, apples, barley, beans, broccoli, cabbage, cauliflower, carrots, celery, citrus, corn, cotton, cucumbers, eggplant, grapes, lettuce, milo, melons, nectarines, rice, pears, peaches, pecans, peppers, plums, potatoes, peanuts, strawberries, tomatoes, turf, turnips, watermelons and wheat.
