SAFETY DATA SHEET

Dyna Gold Hi-Cal Cotton & Bean Mix Date Prepared: 8/1/2014 Replaces: All Previous

SECTION 1. IDENTIFICATION

Product Name: Dyna Gold Hi-Cal Cotton & Bean Mix

Synonyms: GOLDHICAL

Use: Agricultural, Liquid Micronutrient Fertilizer

Manufacturer: Chemical Dynamics, Inc.

4206 Business Lane
Plant City FL 33566

Phone: 813-752-4950 Chemtrec (Emergency) Phone: 800-424-9300

SECTION 2. HAZARDS IDENTIFICATION				
Pictogram	Signal Word	Hazard Class	Hazard Category	Hazard Statement
	WARNING	STOT: repeat exposure	Cat 2	May cause damage to central nervous system through prolonged or repeat exposure
Precautionary	Prevention: Do not breathe vapors, mists or sprays. Wash thoroughly after handling.			
Statements:	Use only outdoors or in a well-ventilated area.			
	Response: Get medical attention/advice if you feel unwell.			
Disposal : Dispose of contents/containers in accordance with local/regional/national regulations (See Section 13 of SDS).		ocal/regional/national		

SECTION 3. COMPOSITION			
Material	CAS#	EINECS #	%WT
Manganese Glucoheptonate	12565-60-5	Not Assigned	9%
Zinc Glucoheptonate	12565-63-8	Not Assigned	Proprietary Blend
Hydrated Ammonium Calcium	15245-12-2	239-289-5	of Materials not
Nitrate double salt			Classified as
Water	7732-18-5	231-791-2	Hazardous

See product label for guaranteed analysis.

	SECTION 4. FIRST AID MEASURES
General:	In case of persisting adverse effects consult a physician. Treat symptomatically.
Ingestion:	Rinse mouth. Do NOT induce vomiting. Drink large amounts of water. Never give
	anything by mouth to an unconscious person.
Skin Contact:	If on skin (or hair): Take off all contaminated clothing. Rinse skin with soap and
	water for at least 15 minutes.
Inhalation:	If inhaled: Remove person to fresh air and keep comfortable for breathing. Provide
	artificial respiration if necessary. Seek medical attention if necessary.
Eye Contact:	Rinse cautiously with water for several minutes. Remove contact lenses if present
	and easy to do. Continue rinsing. If eye irritation persists: get medical attention.
Acute Exposure	May cause slight, transient irritation of eyes and skin. Ingestion may be irritating to
Symptoms:	the gastrointestinal tract.
Chronic Exposure	Prolonged skin contact may result in dermatitis (inflammation and redness of skin).
Symptoms:	Manganese may lead to neurotoxicity that resembles Parkinson disease. These
	patients may have bradykinesia, resting tremor, psychiatric disturbances, and
	shuffling gait.

	SECTION 5. FIRE FIGHTING MEASURES
Extinguishing	Water spray is recommended. Halon, foam, dry chemical, CO2 or any ABC class
Media:	extinguisher are acceptable. Use extinguishing agent most appropriate to
	surrounding materials. Cool containers with water spray to avoid rupture due to
	thermal expansion.
Specific Hazards:	This product is an aqueous mixture which will not burn. Under fire conditions, this
	product may behave as an oxidizer if evaporated to dryness. Contact with
	oxidizable substances may result in ignition. Violent combustion or explosion when
	involved in fire can occur. In a fire this material may decompose and produce acrid
	vapors, calcium, zinc and manganese compounds and oxides of nitrogen.
Protective	Wear self-contained breathing apparatus (SCBA) and full protective gear. Avoid
Equipment and	inhaling combustion products.
Precautions for	Fire run-off should be contained to prevent possible environmental damage.
Fire-Fighters:	
NFPA Rating:	Health: 1, Fire: 0, Reactivity: 0

	SECTION 6. ACCIDENTAL RELEASE MEASURES
Precautions:	Isolate area. Keep unnecessary personnel away. Avoid splashing or spraying.
Protective	Impervious gloves (rubber, neoprene or nitrile), Long sleeved clothing.
Equipment:	Chemical splash-proof goggles.
	Chemical resistant apron and/or rubber boots may be needed.
Containment:	Stop flow of material if safe to do so. Dike area with diatomaceous earth or sand
	and maximize recovery. Do not absorb in saw dust.
Clean Up:	Pump into a suitable tank or absorb with diatomaceous earth or sand. Sweep up
	and place into suitable containers for agronomical land application at
	recommended rates or dispose of in accordance with local/regional/national
	regulations (See Section 13 of SDS).

	SECTION 7. HANDLING AND STORAGE
Precautions for safe handling:	Avoid contact with skin and eyes. Do not breath sprays, vapors or mists. Do not eat, drink or use tobacco products when handling this material. Apply product in open areas. Keep away from children and pets. Do not contaminate feed, seed or any water sources. Launder work clothes frequently and separate from other laundry.
Conditions for safe storage:	Store in original containers in a well-ventilated, cool, dry place, away from direct sunlight, sources of intense heat, or where freezing is possible. Do not let product go below 40°F. Inspect all incoming containers before storage, to ensure containers are properly labeled and not damaged. Slightly corrosive to aluminum, zinc, and copper. Non-corrosive to steel, or stainless steel (304 or 316).
Incompatibilities:	Water reactive materials, strong oxidizers

	SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION		
Component	Manganese	5 mg/m ³	PEL, OSHA (as Mn compounds)
Exposure Limits:	Glucoheptonate	Not Established	STEL, OSHA
		0.2 mg/m ³	TLV, ACGIH (as Mn compounds)
		500 mg/m ³	IDLH, NIOSH (as Mn)
		1 mg/m ³	TWA, NIOSH (as Mn)
		3 mg/m ³	STEL, NIOSH (as Mn)
	Zinc Glucoheptonate,	Not Established	PEL, OSHA
	Sodium	Not Established	TWA, ACGIH
	Glucoheptonate,	Not Established	IDLH, NIOSH
	Hydrated Ammonium	Not Established	REL, NIOSH
	Calcium Nitrate	Not Established	STEL, NIOSH
	double salt		
Engineering	Provide local exhaust ventilation and wash facilities.		
Controls:			
Personal	Eyes: Chemical splash-proof goggles (where splashing is possible)		
Protective	Skin: Impervious gloves (rubber, neoprene or nitrile), long sleeved clothing.		
Equipment:	Chemically resistant apron is recommended.		
	Respiratory: None required for ambient air concentrations (i.e. in the open under		
	normal agronomic conditions) not exceeding occupational exposure limits.		
	Respiratory protection may be required in the event of a spill in an enclosed area.		
	Use a NIOSH/MSHA approved SCBA with full face piece operated in a positive		
	pressure mode.		
General:	Eye wash stations and	safety shower reco	ommended

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES				
Appearance:	Dark, Opaque liquid	Dark, Opaque liquid		
Odor:	Slight sweet odor	UEL / LEL:	Not Applicable	
Odor Threshold:	Not Available	Vapor Pressure:	Similar to water	
pH:	4 to 5	Density:	1.38 to 1.41 g/cm ³	
Melting/Freezing Point:	< 0°C (32°F)	Solubility:	Water	
Boiling Point:	> 100°C (212°F)	Logow:	Not Available	
Flash Point:	Not Applicable	Auto Ignition Temp:	Not Applicable	
Evaporation Rate:	Similar to water	Decomposition Temp:	Not Available	
Flammability (Solid/Gas):	Not Applicable	Viscosity	Not Available	

SECTION 10. STABILITY AND REACTIVITY		
Reactivity:	Product may act as an oxidizer, particularly if evaporated to dryness	
Chemical Stability:	Stable under normal conditions	
Possibility of Hazardous	Hazardous polymerization will not occur.	
Reactions:		
Conditions to avoid:	Avoid exposure to extreme temperatures, contact with incompatible chemicals and all contact with combustible materials. Elevated temperatures may cause containers to rupture. Cold temperatures may cause product to salt out.	
Incompatible Materials:	Flammable and combustible materials, strong reducing agents (such as ammonium hydroxide), finely powdered metals.	
Hazardous Decomposition Products:	Calcium, manganese and zinc compounds, and nitrogen oxides.	

	SECTION 11. TOXILOGICAL INFORMATION
Acute Toxicity:	Manganese Glucoheptonate: LD50 oral (rat): Not available, but for an analog manganese complex the LD50 oral (rat) >5000 mg/kg For all other materials: LD50 oral (rat): >2000 mg/kg
Likely Routes of Exposure:	Inhalation, ingestion or skin absorption
Symptoms and Signs of Exposure:	Eyes: May cause mild irritation. May result in redness, tearing and blurred vision. Skin: Ma cause mild irritation to the skin. May result in redness, itching and pain. Ingestion: May cause digestive tract irritation, with accompanying nausea, vomiting and diarrhea. Inhalation of mist may irritate or burn nose, throat and lungs. Coughing, nausea, headaches and weakness are possible. Effects are expected to be transient.

Chronic Effects:	Prolonged skin contact may result in dermatitis (inflammation and redness of skin). Repeated ingestion of small amounts may cause weakness,
	depression, headaches, neurological effects and mental impairment.
	Manganese may lead to neurotoxicity that resembles Parkinson disease.
	These patients may have bradykinesia, resting tremor, psychiatric
	disturbances, and shuffling gait. Also, chronic excess manganese
	inhalational exposures may lead to pulmonary inflammation and
	subsequent reactive airway disease.
Carcinogenetic:	None of this product's components are listed by ACGIH, OSHA, NIOSH or
	NTP as carcinogenic.
	IARC: 2A Probably carcinogenic to humans (Nitrates (ingested) under
	conditions that result in endogenous nitrosation)
Mutagenicity:	Not Available
Reproductive Toxicity:	Not Available

SECTION 12. ECOLOGICAL INFORMATION		
Ecotoxicity:	In high concentrations, this product may be harmful to both terrestrial and	
	aquatic plant or animal life.	
Other Adverse Effects:	Not harmful to ozone layer	
Ecotoxicity:	Manganese Glucoheptonate: Not Available, However, for analogous,	
	derived from water soluble manganese compound:	
	LC50 Daphnia magna (Water Flea): 15200 ug/L/48 hr; static	
	LC50 Canthocamptus sp (Harpacticoid Copepod): 150 ug/L/48 hr;	
	static	
	LC50 Pimephales promelas (Fathead Minnow): 30600 ug/L/96 hr;	
	flow through	
	Zinc Glucoheptonate, Hydrated Ammonium Calcium Nitrate double salt and	
	Sodium Glucoheptonate:	
	Not Available	
SECTION 13. DISPOSAL CONSIDERATIONS		
General Information:	As packaged, this product is a D001 ignitable waste per 40 CFR 261;	
	applicable to wastes containing this product.	
Disposal Instructions:	Agronomical land application at recommended rates or dispose of in	
	accordance with local/regional/national regulations.	
	SECTION 14. TRANSPORT INFORMATION	
This material is not hazard	ous as defined by 49 CFR 172.101 by the US Department of Transportation	
•	vision 34 specifically removes the commercial grade calcium nitrate double	
salt (calcium nitrate and an	nmonium nitrate) from the Hazardous Materials Table 49 CFR 172.101.	
Proper Shipping Name:	Not Applicable	
Hazard Class:	Not Applicable	
UN Identification #:	Not Applicable	
Packing Group:	Not Applicable	
Required Label(s):	Not Applicable	
Emergency Response	Not Applicable	
Guide Number:		
Marine Pollutant:	Yes (Manganese)	

SECTION 15. REGULATORY INFORMATION	
TSCA Inventory Status	All intentional ingredients listed on the TSCA inventory.
DSCL (EEC) Status	All intentional ingredients listed on the DSCL inventory.
United States – SARA Hazard Category:	This product has been reviewed according to the EPA Hazard Categories promulgated under Sections 311 and 312 of Title III of the Superfund Amendments and Reauthorization Act (SARA) and is considered, under applicable definitions, to meet the following categories:
	Fire – No, Pressure – No, Acute – No, Chronic – Yes, Reactive – No
SARA Title III	This product contains the following substances subject to the reporting
Information:	requirements of Title III (EPCRA) of the Superfund Amendments and
	Reauthorization Act of 1986 and 40 CFR Part 372:
Manganese	CERCLA RQ (pounds): No RQ is assigned to this generic or broad class,
Glucoheptonate and Zinc	(Manganese compounds and Zinc compounds) although the class is a
Glucoheptonate	CERCLA hazardous substance. See 50 Federal Register 13456 (April 4, 1985).
·	SARA Reporting, 302: No
	SARA Reporting, 304: No
	SARA Reporting, 313: Yes, 1.0% de minimus concentration (N450,
	Manganese Compounds), 1.0% de minimus concentration (N982, Zinc
	Compounds).
Ammonium Calcium	CERCLA RQ (pounds): No
Nitrate double salt	SARA Reporting, 302: No
With ate double sait	SARA Reporting, 302: No
	1 9
	SARA Reporting, 313: Yes, 1.0% de minimus concentration (N511, Water Dissociable Nitrate)
Federal Insecticide,	,
<u>-</u>	This product is not a pesticide.
Fungicide, and	
Rodenticide Act	Other state as a letter a second Check in dividual state as a singular state.
State Regulations:	Other state regulations may apply. Check individual state requirements.
SECTION 16. OTHER INFORMATION	
Date of Revision:	8/1/2014, revision prepared in accordance with 29 CFR 1910.1200 Appendix
	D to meet Global Harmonization Standards.
Disclaimer:	The information contained in this SDS refers only to the specific material
	designated and does not relate to any process or use with any other materials.
	This information is based on data believed to be accurate and reliable as of the
	date hereof. It is intended for use by persons possessing technical knowledge at
	their own discretion and risk. Because safety standards and regulations are
	subject to change and because Chemical Dynamics, Inc. has no continuing
	control over the material, those handling, storing or using the material should
	satisfy themselves that they have current information regarding the particular
	way the material is handled, stored or used and that the same is done in
	accordance with federal, state and local law. No warranty, expressed or
	implied, and no liability is assumed by Chemical Dynamics, Inc. in conjunction
	with the use of this information. Nothing herein is to be construed as a
	recommendation to infringe any patents.
