	SECTION 5. FIRE FIGHTING MEASURES
Extinguishing	Water spray is recommended. Halon, foam, dry chemical, CO2 or any ABC class
Media:	extinguisher are acceptable. Use extinguishing agent most appropriate to
	surrounding materials. Cool containers with water spray to avoid rupture due to
	thermal expansion.
Specific Hazards:	This product is an aqueous mixture which will not burn. In a fire this material may
	decompose and produce acrid vapors, manganese, zinc and magnesium
	compounds, sulfur oxides and carbon oxides
Protective	Wear self-contained breathing apparatus (SCBA) and full protective gear. Avoid
Equipment and	inhaling combustion products.
Precautions for	Fire run-off should be contained to prevent possible environmental damage.
